Alberta's Wool Crop.

The sheep-raising industry in Alberta is becoming a very important one. It is estimated that already there are no less than 30,000 head of sheep in the district, whose wool crop will reach 170,000 lb. The quality of the wool will rank as equal to Montana's medium, and at an average value of 16c per lb.

Will Not Leave Us.

Mr. William Denny, the enterprising proprietor of the Victoria House, Government street, who is retiring from business, does not intend to leave the province. He has purchased six acres of land on the Gorge road whereon he intends to erect a handsome residence.

GOSSIP FROM ENGLAND

A Real Estate Transfer--Condition of Trade---Lord R. Churchill.

The Queen's Jubilee--An American Exhibition---A Famous Racer.

SALE OF A LARGE ESTATE.

NOTTINGHAM, March 15.—It is seldom in these days that one has to record so important a sale as that just effected by Messrs. Chinnock, Galsworthy, and Chinnock, viz., Jervaux Abbey forming part of the Marquis of Ailesbury's Yorkshire estates, comprising 10,002 acres, with a gross rental of £11,675 a year; the price realised is £310,000, with the timber to be paid for extra. Mr. Caulliffe Lister, of Bradford, is the purchaser. It will be remembered he also bought of the same firm in 1882, the Swinton-park estate, which lies contiguous and comprises 22,-000 acres. The two estates now combined extend over an area of about 12 square miles, with the river Ure flowing through the centre, and certainly form one of the most important properties in England. Mr. Lister is a member of one of the oldest Yorkshire families. He is in many respects one of the most remarkable men of the age; his invention of the combing-machine has been the instrument of the acquisition of more than one fortune, besides giving employment at Mr. Lister's own mills at Manningham, near Bradford, to between 3,000 and 4,000 hands. The story of that invention is one of the romances of trade, and struck the active mind of the late Mr. Mark Pattison as one of the most marvellous incidents of this century. The principal article of manufacture at Manningham just now is plush.

THE REVIVAL OF TRADE.

The most satisfactory news that one hears in the lobby of the House of Commons (says a London correspondent) is that of the revival of trade. All sorts and conditions of members have evidence by show that business is brightening everywhere. The legislators who are specially interested in railways and in the iron trade, in the coal trade, the timber trade, and the textile industries, all alike are becoming more and more cheerful. Even those interested in agriculture are beginning to take a more hopeful view of things. They have come to the conclusion that prices have touched bottom at last. Land which has been a drug in the market for many years is now selling. One hears of properties which have been put up to auction again and again, without having attracted a single bid, being disposed of by private treaty. Sir Robert Fowler, who traveled in far countries during the parliamentary recess, is of opinion that we are at the beginning of what may be a prolonged period of great prosperity. The baronet is a high authority on these matters.

LORD RANDOLPH CHURCHILL'S CHANCE WILL COME.

Lord Randolph Churchill is not quite forgotten. His friends think his absence extremely prudent, and it will be prolonged until the coming crisis is past. They are sure that he is in no danger of becoming a Liberal. Even now there are some of the Tories saying that nothing but Lord Randolph's presence in the cabinet is a guarantee against any relapse into the old ways. All agree that the late Chancellor of the Exchequer does well to be out of the way, and in spite of the immense ascendancy of Lord Salisbury in the Tory party—never so great as since he dispensed with his youthful colleague—it is not difficult to see that there may come a time when the progressive section may feel that they have fallen back into the ruts of traditional policy, and may look to Paddington for their deliverer.

THE GERMAN EMPEROR AND THE QUEEN'S JUBILEE.

The London correspondent of the Manchester *Guardian* says: I learn from a private letter received from Vienna that a magnificent dinner service of the Dresden bright yellow ware, only used for Royal presents, is being made there by order of the Emperor William for the Queen for presentation on the occasion of her jubilee. Each plate will have five medallions, having on them either allegorical pictures recalling memorable incidents in the Victoria era or portraits of celebrities of the Queen's reign. There are to be in all 288 large and 120 small plates, and 72 dishes of all sizes, besides tureens, sauce-boats and fruit dishes. The centrepiece for flowers and fruit will be surmounted by a statuette of the Queen, and have medallion portraits in relief—white or gold—of the members of the Royal Family of England.

THE FORTHCOMING AMERICAN EXHIBITION.

The extent of the grounds to be occupied by the forthcoming American exhibition at Earl's Court, Kensington, will amount to nearly 23 acres. Nearly six acres will be laid out in pleasure grounds, and the flora will include all such American specimens as will stand the English climate. Two military bands will play alternately in the grounds, and there will, in addition, be pavillions for special exhibits, refreshments, &c., roller coasters, and a model of the celebrated American switch-back railway in Pennsylvania. Two performances daily will also be given by Buffalo Bill on the grounds of the Wild West.

A STRAW HOUSE AT THE AMERICAN EXHIBITION.

At this exhibition in the spring there will be a house of straw, now being made in Philadelphia. It is an American suburban villa, very handsome and thoroughly artistic in design, two and a half storeys high, and covering a space of 42 feet by 30 feet. It is constructed entirely of materials made from straw, and will prove a great attraction.

ANOTHER FAMOUS RACER.

There was a great gathering of sportsmen at Tattersall's the other day. Some very valuable studs were disposed of at good prices. The misfortune which has fallen upon the Duke of Westminster's famous racer Ormonde, was a general subject of talk. Ormonde, in the opinion of most specialists, was the best three year old that ever ran on the turf. The wise men of the turf, however, are inclined to believe that no less an equine wonder may come to light this year. We are three months from Derby day, yet the Baron has already been declared by the unanimous consent of racing men as the winner of the Blue Riband of the Turf. The horse which is to occupy the position on the turf in 1887 that Ormonde filled in the previous year is the property of Mr. Matthew Dawson and another person, said to be the Prince of Wales or Lord Randolph Churchill.

THE DATE OF THE JUBILEE.

The London *Standard* points out that England will celebrate the Queen's Jubilee somewhat later than other portions of the Empire; but the *fete* will be held in the season when England is at its best, and when there is most chance of fair skies and genial air. Her Majesty has been pleased to propose to attend a Thanksgiving Service in Westminster Abbey on Tuesday, June 21st, and the government have decided to that the day day shall be observed as a national holiday.

THE JUBILEE NAVAL REVIEW.

Sixteen gunboats and a large flotilla of torpedo boats are to be made ready at Portsmouth for the jubilee naval review at Spithead at the end of May. Besides the powerful squadron of ships now in the steam reserve, three sea going squadrons will take part in the review. The reserve squadron is to be at Spithead by the 25th of May, the training squadron will return by the end of next month, and the channel squadron, due at Gibraltar on the 28th April, will be ordered home for the review.

THE GAMBLERS

on board the Atlantic liners will soon be brought before the judges in the shape of an action at law. Some strange and startling revelations, it is said, will then be made of how young fellows get hooked in the smoking-room, voyage after voyage by professional sharpers, who live by what they make on board.

PROPOSED ELEVATED RAILWAY FOR LEEDS.

An "elevated" single line railway is proposed for Leeds. The devisers are Messrs. J. C. Jefferson and J. T. Pulton, of Leeds; and the new line is intended to run from North-street to Roundhay Park. It is claimed that it would need less capital; would give most direct and rapid communication, low fares, comfortable carriages; and that it would be the least objectionable of any system to dwellers on the route. INLAND INFORMATION.

Latest News from Kamloops, Clinton and Spallumcheen.

[From the Sentinel.]

There is talk of making an effort to have telephone communication in Kamloops.

Mrs. Wallace, Spallumcheen, has been so ill as to be confined to bed for some weeks. Her friends have good hopes of her speedy recovery.

Stuart McDougall, from near Halifax, Nova Scotia, was one of the recent delayed passengers. He took inflammation of the lungs and was taken to the hospital at Kamloops on the arrival of the first through train, where he died on Monday last. He was buried the same day.

At a meeting of the Hospital Committee held on Wednesday night last the following officers were elected: Jas. McIntosh, chairman; J. C. Grahame, treasurer; E. H. Jones, secretary. The following gentlemen were appointed directors at their respective stations: Priest's Valley, R. Allison; Spallumcheen, M. Lumby; Grand Prairie, J. Pringle; South Thompson, J. Duck; Nicola, J. Clapperton; Cache Creek, Chas. Semlin, M. P. P.; Clinton, Mr. Sones; Revelstoke, William Brown; Donald, A. W. Vowell.

The Lansdowne Hotel has changed owners, and about the 1st April Mr. Wallace will succeed Mr. Furstineau.

Farmers near Clinton are preparing to commence seeding. They are anticipating abundance of water for irrigation purposes this summer. Consequently they are calculating on heavy crops.

The Foster Mining and Milling Co. will have their mill in running order about the first of the month. They are pushing the work, and expect to turn out ore in abundance.

There is a new hydraulic mining company, started on the Fraser river, about eleven miles above Lillooet; it is called the Fraser River Cable Mining Co. The system they intend working it on is new in this part of the country. They take the water out of the creeks by means of hose or pipes suspended from a cable stretched across the river. They expect to commence work in about two weeks. If this system is a success it will be ten times cheaper than the old ones.

A party will shortly start out from Clinton to commence work on the Deception Creek Co.'s ledges. They have some very fine looking rock, and are confident of success.

Donald Notes.

The 17th of March was celebrated in this town by a banquet, at which a large number were present.

The Italian, Busa Brovina, supposed to be an accessory to the Sands' murder, was committed for trial by Messrs. Long and Silly, J. P.'s. The Italian Carnao, who did the stabbing, is believed to be working his way to the line via Kootenay Lake.

Mr. Fairman and his brother have left for the coast, where they will remain for the summer.

Mr. Blake, inspector of telegraph offices, etc., on the Pacific division is here, there and everywhere between Donald and Vancouver in a week.

Some days since a re-arrangement of the C. P. R. saw, square and plane brigade at Donald took place. The reasons given by the men for their discharge are conflicting. No doubt their refusal to shovel snow when the C. P. R. was blocked at the Selkirks had something to do with it.

Mr. E. Russell, telegraph operator, has left for Montana. He goes south from Calgary.

Mr. J. H. McTavish, on his way east from the coast, was to lay out the new town site for Donald. It will be surveyed at once. The correspondent of the *Tribune* says: Every lot, every foot of ground in the old survey, from the Selkirk House, west to the Windsor House, is claimed by various squatters, and many schemes are employed by them to protect their rights. Report says that the town site will be from the C. P. R. boarding house east. If so, why waste words disputing about the lots at the west end?

Mr. G. O. Buchanan intends removing to the Selkirks shortly. He has a saw mill there.

Mr. and Mrs. A. McInnes will leave shortly for Seattle, where they intend residing for the future.

There is still about a foot of snow on the ground. It is thawing rapidly. The mountain streams are considerably swollen.

Mr. W. A. Ducker, D. L. S., of the C. P. R. land department is in town, presumably in connection with surveys in the new town site.

Blockade Raised.

On the arrival of the first train, and now Anderson & Hastie, Fort street, offer furniture of all kinds at bottom prices.

NEW FREIGHT RATES.

How the Inter-State Commerce Act will Operate on Trade

On the Pacific Coast---New and Old Rates Compared--Sharp Advance.

Importers and shippers on the coast are now beginning to realize the effect the Inter-State Commerce Act is going to have upon their operations. The rates on all the transcontinental lines have taken a sharp advance.

EAST-BOUND RATES.

The Portland *Oregonian* in referring to the new transportation rates says that the new east-bound rates now in force, and which it is more than probable will be the rates for the season are, on wool, $2.35 per 100 lbs to Chicago (the transcontinental lines make rates no further east than Chicago), and 55 cents from Chicago to Boston; total, Portland to Boston, $3.90. Rates from interior points in Oregon and Washington are the same. Salmon to Chicago is $1.55; to New York about 45 cents more; total, $2. Last year's rate, 92c. Hops to Chicago, $1.95; to New York, about $2.55. Last year's rates, $1.22. It will now be impossible to ship live sheep east. Mr. Fordyce who has 10,000 sheep on the Snake river in Idaho, says the new schedule of freights between the west and the east has been increased from 65c. to $4.25. The opinion is now entertained that the effect of the Interstate Commerce Act will be the building up of manufactories on this coast, and that instead of wool being shipped east it will be manufactured in the west into clothing, flannels and similar fabrics.

WEST-BOUND RATES.

Following is the new tariff on west bound freight now in force from St. Paul and Missouri River points to Portland, Tacoma and Seattle.

Classes.	New Tariff.
First class	$4 60
Second class	3 50
Third class	2 90
Fourth class	2 25
Fifth class	1 10
Class A	1 25
Class B	1 40
Class C	1 10
Class D	1 60
Class E	1 60

These rates will be subject to the "Joint Western Classification," which is the classification adopted by all the roads between Chicago and the Missouri river, and differs slightly from the transcontinental classification.

In making comparisons between the new tariff and the old one, it should be remembered that the old tariff was obsolete and had not been in force since the dissolution of the Transcontinental association a year ago, and the war of rates which followed. It serves only as a basis on which to cut rates. The general rate has been to make the rate 50 per cent. of the tariff, with a minimum of 60 cents per hundred. Take, for instance, first-class freight. The apparent increase is 50 cents a hundred. In reality it is $2.25, because the rate at which first-class freight is carried is $1.75; not at $3.50. This class includes dry goods, clothing, boots and shoes, and merchandise generally on which the freight does not cut much of a figure in the cost to the consumer. With agricultural implements the rate is increased 222 per cent. Under the present classification they come under class A; under the new, under fifth class; present cut rate, 70 cents; new rate, $2.25; increase, $1.55, which will amount on each reaper to a little more than $7.50. With barbed wire, a very important item in this country, the increase is still larger. It will be in the fifth class, and has been coming at the minimum rate, 60 cents. This will increase the price $1.65 per hundred.

Provincial Museum.

The following are the contributions to the Provincial Museum for the month of March: Victoria—D Deasy, snake in glass, ancient fire-arm; Alick Anderson and G A McTavish, 140 native birds' eggs; Mayor Pell, two western bluebirds in glass case; J J Cowley, two sea mice; George F Langley, one zebra fish in glass; Carne & Munsie, section of petrified tree from Alaska, one flying fish; F K Williams, sample of silver amalgam from Vital creek; J Knight, one red-shafted woodpecker. North Saanich—G A McTavish, one stone axe, entomological cork. Ladner's Landing—Paul Ladner, Townsend's fly-catching thrush; Thos McNeeley, one northern diver. Fort Simpson—W B Anderson, one sea argus, Indian curios, two gray-crowned finches, envelope of skate. London, Ont.—Prof. Saunders, entomological pines and cork. Moodyville—Capt James Van Bramer, samples ores from Hope, Yale and Cherry creek mines.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that Green's August Flower, will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy-five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottle 10c. Try it.

Friends of this deserving institution are being appealed to for financial aid by way of subscriptions. It is to be hoped those having the work in hand will meet with liberal encouragement at the hands of our citizens. The Y. M. C. A. is an institution that should be generously patronised by all who are in a position to do so, for already it has accomplished much good amongst the young people of the city.

Bijou Opera Company.

Mr. R. O. Gilroy, representing the Adelaide Randall Bijou Opera Company, is in the city completing arrangements for a season of his company at the Victoria, commencing with Wednesday the 13th inst., and the three following nights, Thursday, Friday and Saturday. This company is one highly spoken of by the press wherever they have played, and no doubt will retain their reputation here.

IMMIGRATION PROSPECTS.

Encouraging Outlook for British Columbia in England.

The London correspondent of the Montreal *Gazette*, writing under date the 12th March, says: The emigration season has already commenced. The Allan line steamer of the week before last took out ninety-eight booked through to the Northwest and British Columbia by the Canadian Pacific Railway. The prospects both in Britain and on the continent are encouraging. The Colonial exhibition and the general increase of interest in colonial affairs have not been without their effect; and to these circumstances, coming upon the foundation laid by the work of past years, must be attributed the increase of both British and continental enquiries, which is reported from the Canadian government, the Canadian Pacific Railway, the steamship and other agencies. A distinct feature in these enquiries is the

MARKED PROMINENCE GIVEN TO BRITISH COLUMBIA.

A short time ago a party of twenty farmers from Cheshire left to settle near New Westminster, while on all hands in the United Kingdom British Columbia seems to be naturally coming forward—I say naturally with intent, for it would be difficult for the province to be represented in a more lackadaisical happy-go-lucky way in England than it now is. In Norway, too, a representative from the Pacific province has been deputed by the Canadian Pacific Railway company—not by the Canadian government alone, as has been stated—to get together a colony of farmer-fishermen to settle on an island between Vancouver Island and the mainland, which the government has specially set apart. The British emigration to the Northwest will, I learn, come for the most part from the central counties of England—Cheshire, Lincolnshire, Lancashire and Yorkshire—and be of a most desirable class, small tenant farmers, who are tired of the fight against low prices and the

GENERAL DEPRESSION OF AGRICULTURE at home. Scotland will seemingly send little to Canada this season unless the Imperial Government adopts the emigration recommendations of the Crofter commission, as it should undoubtedly do. Much the same must be said of Ireland. If the talked of land measure of Lord Salisbury enables assistance to emigrate to be given by the state to farmers and inhabitants in the congested districts of Ireland, some emigration to the Northwest may result, but not otherwise. The general continental emigration to Canada will come from Sweden, Norway and North Germany, though Roumania and South Russia are likely to send batches to swell the colonies already established in the Ottawa valley and in the Northwest.

PERSONALS.

Mr. E. C. Goulding, barrister, returned to Vancouver this morning.

Mr. John Gilmour, a well known rancher of Nicola, is in the city.

Mr. Arthur Heathorn, after a sojourn of several months in San Francisco, returned by the Elder last evening.

Mr. Thos. G. Moody returned from the Bay City last evening by the Geo. W. Elder.

Mrs. Whitlaw, the fashionable milliner, has returned and will soon be ready to show the ladies novelties.

We were pleased to see Mr. Frank G. Richards, sr., on the streets to-day looking as well as ever after his recent illness.

Mr. R. L. T. Galbraith, ex-M. P. P., leaves for the east this evening. He will go as far as Winnipeg and other eastern centres before going back to Kootenay.

Mr. R. P. Nelson, of New Westminster, is in the city. His tall manly form towered above every head to be seen on the streets to-day.

Mr. W. R. Oxley, Brantford, Ont., is in the city and registered at the Clarence. He is land hunting for himself and a colony of intending emigrants from that important section of the Dominion.

Mr. J. K. Sutter, of the Mainland *Guardian*, was amongst the arrivals from the mainland this morning. His journalistic years, although numerous, rest easy on his shoulders, for he is as hale and as hearty as he was some years ago.

Mr. John Martin, chief packer for Caldbreath, Grant & Cook, of Cassiar, returned from the east via the N. P. R. yesterday. When returning to the eastern provinces, the home of his parents, he arrived at his mother's residence just one hour before she died. The lady was 84 years of age.

The Guelph Ministerial Association have pronounced against Sunday milk delivery, against keeping stores open after 1 on Saturdays, and against keeping drug stores open on Sundays, to such an extent as prevents employees from attending church.

By the death of David W. McCall, on the 16th inst., Norfolk county lost an old and highly esteemed resident. He was born on the 21st of June, in the year 1817, on the homestead farm near Vittoria, and belonged to a family that has been prominently identified with the country since its first settlement in 1790.

His Excellency the Governor-General, Lady Lansdowne and suite purpose paying a visit to Toronto early in May, occupying a house for two or three weeks as they did at Montreal recently. It is possible that the interregnum between Mr. Robinson's departure from government house and Sir Alexander Campbell's arrival may be turned to account, and that their excellencies will put up at government house during the contemplated visit.

Mr. Gaudet, M. P. for Nicolet, while in Ottawa last week, said his constituents had approved of the position he took last session in supporting the resolutions of non-confidence in the government, and that he has not changed his attitude. Gaudet voted last year with the opposition on all important questions, including M. C. Cameron's resolution condemning the government's Indian policy.

Following up the action of the Ontario bar, a deputation from the Montreal bar waited upon Sir John Macdonald and Hon. Mr. Thompson at Ottawa last week to press upon the government the necessity of increasing the salaries of the Quebec judges. The ministers promised to consider the request, and hinted that a general scheme for readjusting the salaries of judges throughout the Dominion might be introduced at the approaching session.

IN the Ontario Legislature the Attorney-General's act for the protection of infant children has been read a second time. The bill deals with the evils of baby-farming and gives municipal authorities power to license and regulate houses carrying on such business.

A DEPUTATION from the Toronto branch of the Irish National League were last week informed on undoubted authority that the Ontario government would this session introduce a resolution condemning the Irish Crimes bill now before the British House of Commons and expressing sympathy with the Irish people in their struggle for Home Rule.

THE British Government have, it is stated, in course of preparation a bill to amend the Limited Liability Acts, the object being to prevent, as far as possible, unscrupulous persons from promoting companies for their own aggrandisement, irrespective of the necessity for such companies or their prospects of ultimate success.

THE Hon. William Macdougall has published a statement, in which he contends that the Canadian Government's position regaring the fisheries dispute is wrong. He defends the position taken by Secretary Bayard, and condemns the present government as having put a very narrow construction upon the treaty of 1818.

A VERY stringent act will be introduced in the Nova Scotia Legislature on Monday to prevent profanation of the Lord's Day. It provides penalties for any one buying, selling or trafficking, or doing any manual labor not works of necessity or mercy, engaging in any game, fishing operation, street cars or running railways or steamboat excursions.

IN THE Nova Scotia legislature, Premier Fielding announced that no official correspondence in relation to the question of repeal had yet taken place between the Government of Nova Scotia and those of the other maritime provinces, and that he would in a short time make known the purport of the communications between the governments on this subject.

THE Toronto Licensed Victuallers' Association, in view of the action of the city council in reducing the saloon licenses, have reorganized, and the membership will now embrace hotelkeepers, brewers, soda water manufacturers, cigar manufacturers, and in fact everyone interested in the liquor traffic. They have determined to block at any cost any further attempts to reduce licenses.

IT is said that the main building now being constructed on the grounds of The American Exhibition of the Arts, Inventions, Manufactures, Resources and Products of the United States, at Earl's Court, Kensington, is entirely unique, and will in itself be a most interesting exhibit. The entire framework of the structure is composed of steel rails, such as are used in constructing railways.

IT seems that the Alaska Commercial Company, after having a franchise of great value for some twenty years are not content, but want further advantages and now demand of the Treasury Department an increase of their franchise. After making millions of money and exercising an arbitrary sway over all parties going to Alaska on a sealing voyage, they now seek further opportunities to their aggrandisement, and this too to the detriment of the people. It is nothing but an enormous monopoly given to a favored few. The Seattle *Press* urges putting a stop to the whole business at once.

APPRENTICESHIP OF ORPHANS.

A bill was introduced in the House on Monday by Mr. LADNER, to provide for the apprenticeship of orphans and children abandoned by their parents. It gives to the mayors, or reeves, of municipalities, and two justices of the peace or the police magistrates, power to bind any destitute or unprotected child as an apprentice, during his minority, to learn a trade or handicraft, or they may place such child out to service with any person willing to take care of or adopt him on such terms and conditions as they may think fit. The second clause empowers a judge or magistrate when it is alleged that any master or mistress has become insolvent or bankrupt, or so far reduced in circumstances as to be unable to employ or maintain such apprentice or adopted child, or in any case any such apprentice, servant or adopted child is continually neglected or ill-used by the master or mistress, or in the event of the child misconducting himself or neglecting his duty to enquire into the matter and discharge such child from his or her apprenticeship or agreement, in case such allegations are found to be true. The right to assign the apprentice to another party is also accorded by the bill upon the endorsation and with the consent of the aforesaid magistrates. The names of all children thus apprenticed are to be entered in a book to be kept for that purpose, with particulars as to age, sex, etc. The bill was before the Legislature several years ago, but was not then adopted. The object of the measure is unquestionably a good one, and if proper safeguards are taken it will, if it becomes law, be found to work well. It would seem, however, to us, that the age at which a "child" can thus be forcibly bound over to a master not of his own choosing should be stated, as it would undoubtedly be an infringement of the liberty if the subject were a self-reliant youth of fourteen or sixteen years of age interfered with when manfully "paddling his own canoe" and doing it well. With a few necessary amendments, the bill will be workable, and its operation will no doubt be of inestimable benefit to the waifs who without friends and without homes grow into an idle and vicious manhood for want of the restraining influence of legal guardians.

THE LATE POLITICAL CONTEST.

In the course of his address to the Ontario Reform Club in Toronto a few evenings since Sir RICHARD CARTWRIGHT gave his explanation of the failure of the Reformers to carry Ontario. He held that the majority was obtained by the government, 1st by dint of the Gerrymander Act of 1882; 2nd, by means of the recent Franchise Act; and 3rd, by gross partiality on the part of the returning officers or their deputies. He claimed that it can be clearly established that three seats have been taken from Reformers in Ontario by gross misconduct of these officers, and that there are eleven constituencies which went for the government but would have gone for the Reformers had their boundaries been the same as in 1881. Sir RICHARD held, however, that the main cause of the Reform defeat is found in the new Franchise Act. He considered that the judges who revised the lists acted fairly, but the government partisans who prepared the initial list, "perhaps without deliberately dishonest bias, perhaps from their natural associations with the Conservative party, so formed them that in a great many cases the members of the Reform party were at extraordinary disadvantage in their subsequent operations." The advantage thus given to the government party over their opponents was very great, but even with this gain there were thirteen Ontario constituencies in which the government majorities aggregate only 449; so that a change of 17 votes in each of these 13 Ontario constituencies would wipe out the government's majority in the House of Commons. Sir RICHARD alleges that several thousand Reform votes were disfranchised in Ontario by the doctoring of the lists by government partisans, and he therefore maintains that the government majority is a fictitious and dishonest majority. He urged that wherever it is possible every constituency that has been wrongfully carried by the Government by a close vote should be re-opened, and that special attention be given to the revision of the voters' lists. Sir RICHARD referred to the lavish use of money by the government, to the cry that the Reform party were the enemies of the manufacturing interests, as well as to other cries as having an influence on the result, but he evidently wished it understood that the Gerrymander and the Franchise Acts were the principal causes of the defeat of the Reformers in Ontario.

SIR GEORGE STEPHEN was expected in Montreal to-day. He is authority for the statement that there is strong reason for believing that the Imperial government has decided not to subsidize the mail service on the Pacific in connection with the Canadian Pacific route. If they have not already absolutely refused a subsidy, it is feared they will do so.

HOUSE OF ASSEMBLY.

First Session of the Fifth Legislative Assembly.

FORTIETH DAY—CONTINUED.

MONDAY, April 4.

On the Vancouver Incorporation amendment bill, Theodore Davie moved to add a clause giving the Lieutenant-Governor power to suspend the charter, excepting the first and second sections thereof, and applying the Municipalities Act in lieu thereof. After some discussion the amendment was withdrawn and the bill was adopted.

VICTORIA FIRE DEPARTMENT.

The House went into committee on the Victoria Fire Department Charitable Association bill, Mr. Turner in the chair.

Mr. Davie moved to amend section 2, making it read that the amount to be received by the firemen entitled to participate in the fund shall be regulated by the number of months the firemen have served.

Mr. Prior very much regretted that the bill had ever been introduced, for it was a pity to see men who had braved all kinds of danger at fires now divided against themselves as to the allotment of a small charitable fund. He thought that the best way to deal with the matter would be to let the majority decide how the fund shall be distributed. A regularly called meeting of the firemen should be held for that purpose. He would, therefore, move an amendment to make the clause briefly read the said assests shall be divided into shares as such meeting may deem proper.

Mr. T. Davie said that that would only result in having all the trouble over again. It was impossible to come to any satisfactory solution in the manner the honorable member proposed.

Mr. Grant said there were so many difficulties surrounding the matter that it was scarcely fair to ask the House to deal with it. The proper way to settle it was by arbitration.

The Attorney-General said that if the House did nothing at all in the matter the interested parties would go on with litigation and the consequence would be the fund would become impoverished. There could be no doubt about the difficulties surrounding the matter, and the best method of getting over them, so far as had been suggested, would be to adopt the amendment providing for a distribution in accordance with the number of months served.

The amendment introduced by Mr. T. Davie was carried, and the bill was reported complete with amendments.

TRESPASS BILL.

The House went into committee on Mr. Anderson's trespass bill, Mr. Mason in the chair.

Hon. Mr. Beaven said the House had already spent hours in discussing this bill and had not advanced a single stage. The bill should be dropped for this session and brought up next year. He would move that the committee rise.

Motion lost.

On clause one, which prohibits any person carrying a gun across enclosed land, Mr. Dunsmuir asked that Nanaimo be excepted as he could not go back to that district if such a law were extended to that district.

Hon. Mr. Robson said it was right that a man with a gun should be prohibited from crossing an enclosed field. The principle was not a new one.

Mr. Grant wanted to know how much more harm there was in carrying a gun through a field than in carrying a walking stick.

Hon. Mr. Beaven called attention to the laws at present on the statute books, which protected sheep from dogs and prohibited trespass, and showed that there was no necessity for the proposed act.

As it was nearing 6 o'clock the committee rose and reported progress.

COURT OF APPEAL.

Mr. Davie introduced a bill to establish a court of appeal from the summary decision of magistrates which was read a first time.

House rose at 6 o'clock.

EVENING SESSION.

The House on resuming again went into committee on the Trespass bill.

Mr. Anderson said that in view of the lateness of the session and the large amount of work still on hand, he would withdraw the bill in the meantime and promised to bring it up at a future session. He moved that the committee rise.

THE SEAL FISHERIES.

The adjourned debate on Mr. Grant's motion, in respect to the Seal Fisheries in Behring Sea was resumed.

Mr. Grant said he had no wish to prolong the discussion, and would accept the amendment to the preamble of the resolution, moved by Mr. Turner.

The resolution as amended was then adopted.

STATES OF IMBECILES.

The House resolved itself into committee on the bill respecting the estates and to control the civil rights of habitual drunkards, Mr. Cowan in the chair. The bill was amended slightly in committee and reported complete to the House.

PRIVILEGE.

Mr. Dunsmuir protested against the TIMES printing Scotch. "The gentleman who edits that paper canna speak Scotch, and I doot if he kens English very weel," observed the Laird of the Isle.

LAND REGISTRATION.

The bill to amend the Land Registry Ordinance was reported complete with amendments.

WITHDRAWN.

Mr. Davie's Homestead Exemption bill and Mr. Orr's Legal Professions amendment bill were withdrawn.

BALLOT ACT.

Mr. Higgins moved the second reading of the bill to amend the Ballot Act, 1877.

Hon. Mr. Davie said the bill was brought in in a very inopportune season, and would be productive of much confusion in view of the election about to be held in Yale. The act would not work well in Lillooet district, or in other outlying districts. In view of the slight consideration which the bill can obtain this session, it would be unsafe for the House to pass it now.

Mr. Semlin thought more harm would result from counting the ballots at the several polling places than at one central point. The returning officers were compelled to appoint numerous deputies, and thus the risks of mistakes were largely multiplied.

Mr. Prior was in favor of dispensing with the number on the back of the ballot paper, in order that complete secrecy might be secured. Rather than pass it in the present form, he would prefer to see the bill held over until next session.

Mr. Turner would prefer to see the bill deferred. There was no special object to be obtained by passing it this session.

Mr. Grant said when the bill did pass, it should be amended so that a cross placed at any place within the horizontal lines should count for the candidate whose name appeared thereto.

Mr. Dunsmuir had always opposed the ballot act, and was still against all secret methods of voting.

Mr. Martin moved the six months' hoist.

DOMESTIC SEWING MACHINE

WE LEAD: OTHERS FOLLOW.

Is the justly earned motto of the light-running "Domestic" Sewing Machine. In its mechanical construction it has no rival but many imitators.

The new line of attachments that are now sent with each "Domestic" are specialties that no other machine has.

Do not buy a Sewing Machine because it looks like the "Domestic" and can be had a few dollars cheaper. "The best is the cheapest," and that is the light-running "Domestic."

A WILD NIGHT.

HOW THE NEWS OF LEE'S SURRENDER WAS RECEIVED.

The Story Told by a Member of the Army of the Cumberland—The Boys Among the Mountains of East Tennessee.

It was near the middle of April. Darkness had settled down over the great bivouac. The bugles had sounded the tattoo. The grizzled veterans who had been squatting around the camp fires, talking over the scenes of the past, and wondering when the war would be over—had knocked the ashes from their pipes and crawled within their little "pup" tents, or their shelters made of boughs. All was still save the measured tread of the sentinels as they passed to and fro upon their beats around the sleeping army.

Suddenly there came rattling through the clear night air a sound that aroused every soldier in an instant. We had often heard it before and it always meant business. It was the long roll at division headquarters. And such a long roll as it was! The drummer handled his sticks as if he was pounding for his very life. When a soldier hears the long roll he never waits for orders. It is an alarm that has but one meaning. His duty is to get "straps" on and take his place in line, and to be very lively about it, too. The drums at the headquarters of each brigade took up the sound and the piercing blasts of bugles joined in the chorus. Startled from their sleep, the soldiers kicked off their blankets, and it wasn't a minute until the companies were formed, every man with his accouterments buckled on and his musket at "shoulder" in response to the "Fall in!" of the orderly sergeants. Again drums and bugles sounded, the companies marched to the color line and the regiments were ready for action. It was a moonless night, and the darkness of the oak woods was but feebly dispelled here and there by the flickering light of the smoldering fires.

MOMENTS OF ANXIOUS SUSPENSE.

Every ear was strained to catch the rattle of shots on the picket line. No sound was heard save the bustle of the assembling troops and the voices of the officers as they gave the necessary commands. It was one of those moments of anxious suspense that test the courage of the bravest veteran.

An orderly from brigade headquarters dashed up and handed a paper to the colonel of our regiment. A bit of candle was found, and by its sputtering light the colonel glanced at the message. Jumping about four feet into the air he gave one wild, piercing yell that an Apache chief might strive in vain to rival. We all thought for the moment that he had gone crazy. When he came down he handed the paper to the adjutant, letting off another yell, and told him to read it to the regiment. It was a copy of a telegram from Secretary Stanton announcing the surrender of Lee's army. The scene that followed no words can adequately describe. The colonel and adjutant swung their hats and danced around and fairly howled. Every officer and soldier in the regiment, and in every other regiment, did the same thing. We had heard shouting and yelling before, and had done our full share of it on occasion, but never anything like that which greeted the reading of this dispatch. From one end of the camp to the other the confusion and uproar were prodigious. Men laughed and danced and hugged one another, and rent the air with every kind of noise possible to the human voice pitched in its highest key. It was as if the inmates of a score of lunatic asylums had been turned loose in those Tennessee woods.

When the yelling had in some degree subsided, from sheer vocal exhaustion, the soldiers began to cast about for other means to make a noise. It didn't matter what it was—the more discordant the better, only so that it helped to swell the awful din. Meanwhile all the brass bands were playing, though nobody could tell what the tunes were; the shriek of fifes and rattle of drums were heard on every hand, and the buglers strained to make themselves heard until it seemed as if they would blow their heads off. Then the artillery opened. Gun after gun joined in the mighty chorus until every battery in the corps was sending forth its thunders to echo among the mountains. Regiment after regiment began to fire their muskets. The men took their cartridges from their boxes, poured in the powder, rammed down the paper for wadding, and blazed away. The balls they threw upon the ground; there was no further use for them.

A LITERAL PANDEMONIUM.

Perhaps you can imagine the din, but it's more likely you can't. When the soldiers had shot away their cartridges they hunted up all the camp kettles and tin pans, and beat them furiously with sticks and stones, still yelling and shouting as fast as they could gather breath enough to do so. The camp was a literal pandemonium. Heaped with wood the fires blazed high, and the forest was aglow with light.

Men did all sorts of grotesque and ridiculous things. They climbed trees and yelled through the branches; they made heroic speeches from logs and stumps; they turned their clothes inside out; they rode one another on poles—they did everything that great fertility of resource in this direction could suggest. At the headquarters of our brigade a horse basket full of eggnog was made, and the general and his staff indulged in copious libations. After several "rounds" they sallied forth and seized the instruments of the band, and formed for a parade through the camp. The general headed the procession with the bass drum, which he pounded as furiously that he broke in one of the heads. The staff officers, with Lorin, blew the most wildly discordant blasts. As they marched hither and thither, regimental and company officers and hundreds of soldiers fell in behind the general and his staff, until the column of howling lunatics was a quarter of a mile long.

Four years of toiling and suffering such as others know not, of weary marches and vigils by day and by night, through fierce heat and beating storm; of facing the pitiless bullets and screaming shell, amid awful scenes of death and human anguish; long months and years that had thinned regiments of 1,000 to 100—all were past, the end had come, and before the eyes of these scarred and war worn veterans arose in a moment blended pictures of peace and home. Do you wonder that they indulged in these wild and extravagant demonstrations of joy? Added to these were the glad feelings of victory at last, after all the blood and wretchedness, and the patriotic rejoicing over a nation saved by their valor and sacrifices. Let me ask if you wouldn't have been very likely to make a fool of yourself for the time being if you had been there? Let us hope that the recording angel veiled her face that night.—W. F. Hinman in Inter Ocean.

Caught in the Hat.

An organ grinder visited Riverside, Cal., the other day and a crowd collected to hear the music. When he passed his hat around he received two nickels, a piece of a cracker, a pool check, three trouser buttons, a piece of a broken pint bottle, a poker check and a scrap of a city ordinance relating to the obstruction of streets in Riverside.

When to Eat Fruit.

The real place of fruit is at the beginning of a feast, and not at the end. A better plan is to make a meal of bread and ripe fruit. The best meals to make thus are breakfast, lunch, or early tea. The bread should be brown and dry and the fruit ripe and raw. Dry brown bread cleans the tongue and brings out the flavor of the fruit. Butter on the bread would give its own flavor, for even the salt in the butter would destroy the pure taste of the fruit. Again, the fruits should be raw, if possible, as many delicious colors and delicate flavors are lost in the cooking.—Chicago Tribune.

A Jubilee Edition.

Mr. L. Samuel has undertaken the work of getting out a special Jubilee edition of the *West Shore*, dealing exclusively with British Columbia. It will treat on the Province by rail and by water. It will be profusely illustrated with fine engravings, which have been prepared for the edition regardless of cost in order to place the province before the public in a truthful, attractive form, so that the province will have every reason to be proud of the showing to be made, pictorially and otherwise. The *West Shore* ranks with the leading magazines of the country, and reaches the English speaking people all over the world. It has the largest and most extended circulation of any publication on the Pacific coast, and is the only one devoted to the legitimate illustration and description of our magnificent Western world. As such it is looked upon as an authority, and is eagerly read by thousands in search of information about this region. It has done more in the past to introduce the province to the favorable consideration of strangers than any other publication, and is now prepared to excel its former best efforts. We bespeak for Mr. Samuel a liberal support for his enterprise.

An Excellent Appointment.

Prof. Herr Heinrich Bohrer, late of Montreal, and who was musical tutor to H. R. H. the Princess Louise during her stay in Canada, has been appointed professor of piano at Angela College, this city. The Professor is a teacher and pianist in the highest sense of the words. Mrs. Lombard, formerly teacher of music at Angela College, has also been tendered her old position. Miss Dupont, the principal of the college, is to be congratulated upon her choice and it shows how the lady leaves nothing undone which tends to make Angela College one of the finest institutions of learning on the coast.

Rob Roy Check, for Pants and Suitings, at Leask & Morrison's.

For the North.

The steamer Barbara Boscowitz left this morning for Fort Simpson and way ports, carrying 300 tons of freight. The following passengers are on board: Geo Kenney, for Omineca; J A Carthew, Geo Kenney, for Omineca; J A Carthew, D W Morrow, Mr and Mrs Nash, for Rivers Inlet; R Cunningham, Inverness; S A Spencer, C Clifford, C Hankin, T W Conant, Nell Cunningham, and 44 Chinamen. Messrs Carthew and Morrow go to Rivers Inlet to take charge of and operate the Wannock cannery, for Messrs Cowan & Shaw, of this city.

A New Consul.

Dennis Donahue has been appointed British Consul at San Francisco, *vice* G. E. Stanley who will be placed on the pension list, he having served over thirty-five years for the English government. Vice-Consul Mason will still retain his position. Mr. Donahue has been in the United States over thirty years, and has served as British Consul at Buffalo, New York, New Orleans and Baltimore. He was in Baltimore nearly ten years. While there he proved himself a first-class officer, and, by his gentlemanly conduct, made hosts of friends.

Stormy Weather.

For several days past the weather at New Westminster has been extremely disagreeable. The velocity of the wind, at times was from 25 to 40 miles an hour, and coming from the northwest was very cold. At Langley sleet and snow fell, and on the North Arm several buildings were demolished. The barn of Thomas McGee was blown down, W. H. Loudon's barn was unroofed, and a house in course of erection by J. McDonald was moved from its position and considerably damaged. The fences in many places were levelled to the ground.

Fatal Accident at Donald.

A Donald dispatch of the first inst. states that on Tuesday last Thos. Scurry, section foreman at Ross Peak Siding was killed. He was in a deep snow cut, fixing something about the track, and when he saw the work train backing towards him he climbed the bank; but as the train was passing the snow gave way and he was carried under the cars. His legs were severed at the body, and in two hours he was dead. His brother lives in Selkirk, Manitoba.

Reaching Out.

Mr. Chas. Gabriel, proprietor of the Japanese Bazaar, left this morning for Winnipeg to make arrangements for moving the branch store there into more commodious premises. Mr. Gabriel has secured premises adjoining the new post-office in that city, a most advantageous situation.

The "Vancouver" Vote.

In respect to the vote given by the Victoria members on Mr. Higgins' motion to change the name of Vancouver, it is due to Mr. Prior to state that at the time he was in the chair and consequently did not vote.

The Russian Bear.

The Russian consul of San Francisco has given notice to all sealing and trading vessels that several cruisers will patrol the Siberian coast and the western half of the Behring sea to prevent illicit trading during the coming summer.

Yale Election.

In the House last night, Hon. Mr. Davie said the writ for the Yale election would issue to-day. We learn that Mr. Vernon will have a strong opposition. Mr. Pennie will very probably be his opponent.

Government House.

As Government House is undergoing repair Mrs. Nelson will be unable to receive visitors until the repairs are completed.

Vancouver Presbyterians.

The call of the congregation of the first Presbyterian church, Vancouver, was unanimously in favor of Rev. T. Gavin Thompson.

HOUSE OF ASSEMBLY.

Continued from 2nd page.

Mr. Orr said the bill was of great importance, and if the people of the province were canvassed on it a large majority would be found in favor of counting the ballots at the respective polling places.

Mr. Higgins was surprised at the change in the views of hon. members. The bill was the most important brought before the House this session. Non-professional men, apparently, had very bad luck with their bills—almost every one of them being slaughtered.

On the vote being taken the six months hoist was carried by 13 to 9.

COMPANIES ACT.

Hon. Mr. Davie moved the second reading of the act to amend the Companies Act, 1878. The bill is a short one, and amends section one of the present act.

The House went into committee, Mr. Croft in the chair, passed the bill with amendments.

ORDER DISCHARGED.

The order for the second reading of the Assessment Act Amendment Bill (Mr. Higgins) was discharged.

THIRD READING.

Hon. Mr. Robson's assessment bill was read a third time and passed.

LIEN BILL.

Mr. Strathouse's Lien bill was withdrawn on the motion of the introducer, who refused to accept it without the loggers' clause.

THE LEGAL PROFESSION.

Mr. Semlin moved the second reading of the "Legal Professions Act Amendment Bill." He explained that the object of the bill was to allow lawyers from Great Britain or the other provinces to practice at the bar of this province. On the mainland notwithstanding there were several gentlemen with diplomas from other provinces, there were very few practising lawyers, which was a great hardship to the business community. It was but a simple act of justice to the people that the measure should pass.

Mr. T. Davie moved that the word "now" be struck out of the motion, and that the words "this day six months" be inserted.

Messrs. Higgins, Prior and A. E. B. Davie opposed the bill, and on a division the six months hoist was carried.

APPRENTICING ORPHANS.

Mr. Ladner moved the second reading of his bill providing for the apprenticeship of orphans and children abandoned by their parents. Read a second time and referred to committee.

TAXES.

Mr. Allen asked: Is it the intention of the government to take such steps as will secure a more thorough system of collecting taxes in the outlying districts of the province?

Hon. Provincial Secretary—Yes.

MR. BELL'S REPORT.

Mr. Martin asked: Has the report of Mr. Bell, C. E., in connection with the proposed railway to Cariboo, been received? and if so, when will copies of it be placed before the House?

Hon. Provincial Secretary—Mr. Bell's report has not yet been received, and it will probably not be ready before the prorogation of the Legislature. Mr. Bell will be pleased to show the plans and profiles to any honorable member who may desire to see them, but they are not yet sufficiently advanced to be sent from his office.

Mr. Semlin asked if the report would be printed in the sessional papers.

Hon. Mr. Robson replied that they would if possible.

LICENSES.

Mr. Allen asked: Is it the intention of the government to call the attention of revenue collectors to the necessity of enforcing the collection of licenses from traveling pedlers on the mainland?

Hon. Provincial Secretary—Yes.

EXTENSION OF QUADRA STREET.

Mr. Anderson asked: Is it the intention of the government to extend Quadra street from the city boundary to Saanich road this year?

Hon. Attorney-General—The matter has not been considered by the government.

House adjourned at 11:10 till 1 p.m. on Tuesday.

FORTY-FIRST DAY.

The Speaker took the chair at 1 p. m. Prayers by Rev. Dr. Reid.

THE CABINET.

On the motion to proceed to the orders of the day, Hon. Mr. Beaven moved the following resolution: Whereas the honorable the attorney-general and premier has informed the House that it is his intention to have five ministers in his cabinet; and whereas the government as announced by the premier consists only of three members; that a respectful address be presented to His Honor the Lieut.-Governor, informing him that the House must respectfully decline to transact anything but formal or ordinary and unopposed business, until the cabinet is fully formed and announced. Speaking to the motion, Mr. Beaven said the government being a new one, all the portfolios should be filled before important legislation was transacted. He cited the case of the Palmerston administration, which only attempted to pass such measures as were unopposed until the formation of the new cabinet had been fully completed. Todd laid down the same principle. This House had an undoubted right to know who were going to form the ministry before prorogation, and the leader of the government was treating the House with a great deal of discourtesy in refusing to give the names of his colleagues. If he were unable to do so, he had failed in carrying out the task imposed upon him by the Lieutenant-Governor to form an administration and the House in that case is justified in addressing His Honor on the subject.

The amendment was seconded by Mr. McLeese.

Mr. Bole said this was the first case of the kind in the province, and the importance of having the matter settled and a correct precedent established was of considerable consequence. The matter had not been brought forward for the purpose of opposing the government, but with the view of settling a constitutional question.

Hon. Mr. Davie said not one shred of authority had been produced to prove that the course he had taken was an unconstitutional one. The cases cited were not applicable to the present case at all.

Mr. Grant read from the address of Hon. Mr. Davie to the electors in 1882, when that gentleman declared that it was not constitutional for ministers to hold dual portfolios. Authorities, which he quoted, went to show that it was incompetent for the government to proceed with important business when only partially formed. Had the position of President of the Council been filled, it would not have been so bad. There was very likely so many applicants for the positions vacant that the government was anxious to prevent friction among their supporters until after the session.

On the amendment being put it was lost on a straight party vote—15 to 8.

QUARTZ DEVELOPMENT.

Hon. Mr. Davie moved the second reading of the bill to aid by guarantee and bonus quartz mines in the province. The provisions of the bill, which were explained by the mover, have already been explained in the TIMES. Referring to the proposed amendment by Mr. Beaven, prohibiting the granting of a bonus or guarantee to a company in which a member of the legislature is a shareholder, he was of opinion that it should not be adopted, as it would in effect kill the usefulness of the bill. Bills granting bonuses to woollen mills and reduction have been passed, and he hoped that they would be applied for.

Mr. Grant believed the bill was devised in the best interests of the province, and would support it. The government was justified in taking some chances, and in his opinion, if only one mine became bullion producing, the country would be more than recouped for the whole investment of $60,000.

Mr. Orr said there were only three companies in the province who could avail themselves of the guarantee or bonus in a limited period, and many members of the House were members of those companies. There were other mines—copper and iron—which had been partially developed, and were entitled to consideration. The bill was too much of a special character to merit his approval.

Mr. Higgins supported the bill.

Hon. Mr. Beaven said he hoped the government would let the company, in which he had a small interest, alone. He did not propose to vote on the bill.

Mr. Cowan believed the bill would promote the mining interest which was the most important in the province. He would go further still and vote for assistance to prospecting or placer diggings which were of perhaps greater importance still.

Mr. Mason thought the bill was such a good one, and the results to be derived so general, that it should pass without a dissenting voice. The government had shown themselves to be keenly alive to the best interests of the province. The bill was quite general, and he had expected the leader of the opposition would have given it his support and not have pursued a policy of obstruction.

Ewing's Uncle Tom's Cabin Co.

Mr. Jos. Mount, representing the above attraction, gave this office a call to-day, and stated that his company would appear here for two nights and a Saturday matinee, commencing Friday evening next. This company is meeting with great success everywhere. He says that it is a new version of this play in its entirety, produced with all new scenery, painted by W. T. Porter of San Francisco, consisting of transformation scenes, &c. This company, consisting of 18, are all first-class people in the profession; also the celebrated Plantation Jubilee singers, and with hounds, making one of the best "Uncle Tom" shows ever seen in Victoria.

Stipendiary Magistrate.

Mr. S. Y. Woolton has been appointed Stipendiary Magistrate at Metlakahtla, and will go north on the Boscowitz, which he will join at Nanaimo to-morrow. We congratulate our young freind upon his elevation to the bench, and have no doubt he will fill the position with credit to himself and advantage to the province.

Mrs. Hampson-Homus.

This lady, who it will be recollected carried on a series of revival meetings in this city in October, 1885, we understand will reach Victoria next Thursday en route for Nanaimo. It is not yet known whether she will deliver addresses in this city.

Base Ball.

The base ball season will be formally opened on Good Friday at Beacon Hill by a match game between the Amity B. B. Club and the James Bay Club. Both teams will play in uniform and a good game is anticipated. The *Colonist's* report of the Amities vs. a picked nine playing on that day is incorrect.
